**NEXT STEP 2013**

**YEAR 12 DESTINATIONS**

Glenden State School

**Introduction**

This report documents a summary of results of the annual Next Step survey for Glenden State School. The Next Step survey, undertaken by the Queensland Government, targets all students who completed Year 12 and gained a Senior Statement in 2012, whether they attended a government, Catholic or independent school, or a TAFE secondary college. The Government Statistician conducted the survey between March and June 2013, approximately six months after the young people left school. Responses were collected via computer-assisted telephone interviewing and an online survey.

Statewide and regional reports from the Next Step survey will be available on the Next Step website in September 2013 at [www.education.qld.gov.au/nextstep](http://www.education.qld.gov.au/nextstep).

**Response rate for Glenden State School**

Table 1 below reports the response rate for Glenden State School. It expresses the number of respondents from this school, as a percentage of all Year 12 completers who attended Glenden State School in 2012.

Due to the low response rate, these results should be interpreted and used with caution.

**Definitions of main destinations**

The pathways of Year 12 completers were categorised into ten main destinations. Year 12 completers who were both studying and working were reported as studying for their main destination. A table defining these categories can be found in the statewide report at [www.education.qld.gov.au/nextstep](http://www.education.qld.gov.au/nextstep).

**Summary of findings**

In 2013, seven young people who completed Year 12 at Glenden State School in 2012 continued in some recognised form of education and training in the year after they left school.

The most common study destination was Bachelor Degree (three respondents). The combined VET study destinations accounted for four respondents, including three in campus-based VET programs.

One Year 12 completer commenced employment-based training, as an apprentice.

In addition to the above study destinations, a further one respondent from this school deferred a tertiary offer in 2013 (deferrers are shown in Figure 1 in their current destination).

Three respondents did not enter post-school education or training, and all were employed.
